DROP COIN™ VEND METER / ACCEPTOR

The ultimate in 100% solid-state electronic meters . It's the most advanced metering system for self-service use. "Reliability that counts". It is what you expect from a leader in electronic coin meter technology. VENDSETTER™ system, a retrofit metering system, designed & manufactured by the same team that supplies electronic meters for factory installation by such companies as, General Electric, Whirlpool, Wascomat, plus many more. If you need to vend time, add your name to the list of users of our electronic meters. You will be glad you did. Our solid-state timer allows you to change price and/or vend time with the flip of a switch. Digital Display (optional) available, shows coins to start and then switches to time remaining. Units are available for accumulating or incremental time.

COIN ACCEPTOR w/ Magnet assembly-locks out steel slugs

The Set-O-Matic DROP COIN™ is made of aluminum and steel and was designed to be virtually jam-proof and maintenance free. These units use photo-optic coin sensing to verify count. It measures thickness, height, weight and drop speed for each inserted coin. Factory set for superior slug rejection, and can be field adjusted to lock-out most slugs, foreign coins, tokens, etc. Drop coins are available for quarters or tokens.

8000 SERIES METER CASE / LONG MONEY BOX

Specially designed for the DROP COIN meter/acceptor and fabricated of extra strong, high security galvannealed steel. This coupled with our baked gray hammertone powder coat paint assures you of the utmost rust protection, short of stainless. This paint requires hundreds of degrees more in the baking process, but delivers the most durable finish that money can buy. HIGH SECURITY WITH DOUBLE RUST PROTECTION. Large capacity coin box, all steel construction for high security.

Wherever and whenever you vend time, put the Set-O-Matic Vendsetter™ System to work for you. It will put a lot more profit in *your* pocket. For additional details, orders, call, write or fax.
